

For Firefox on a personal computer:

The information contained below can from the following article:

<https://support.mozilla.org/en-US/kb/how-clear-firefox-cache>

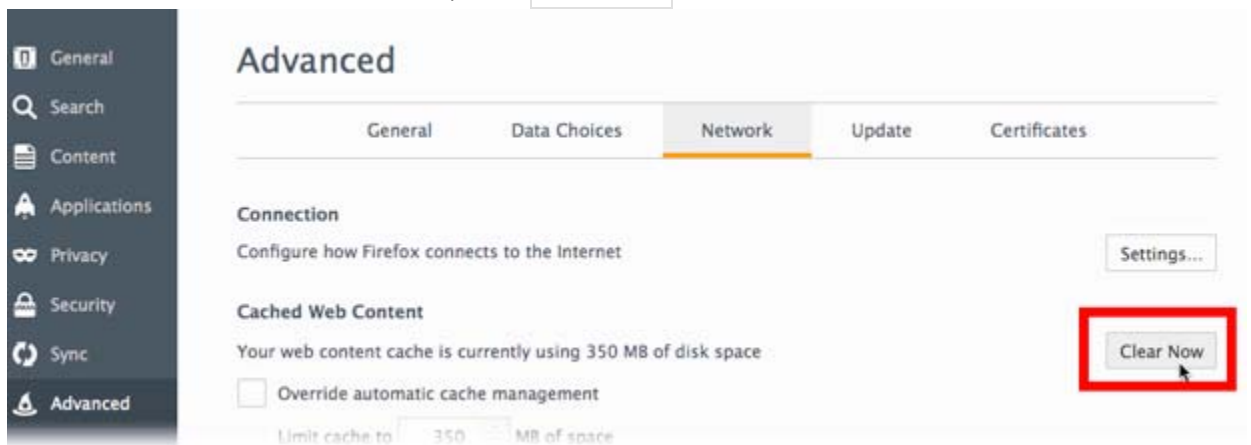

If you have any questions please review the article sited above.

How to clear the Firefox cache

The Firefox [cache](#) temporarily stores images, scripts, and other parts of websites you visit in order to speed up your browsing experience. This article describes how to clear the cache.

Clear the cache

1. Click the menu button  and choose Options.
2. Select the Advanced panel.
3. Click on the **Network** tab.
4. In the **Cached Web Content** section, click Clear Now.

5. Close the *about:preferences* page. Any changes you've made will automatically be saved.
